

AM EAS SYSTEMS

CONCEALED FLOOR LOOP

The concealed AM floor loop detection system is installed into the shop floor, maximizing the full potential of an open store entrance. With reliable, outstanding detection it's the choice of many retailer looking for an invisible anti-theft system.

Fully scalable

The concealed AM floor loop is designed in a way to be scalable to fit in all doorways and secure up to 4m.

No receiver coils

Even on bigger entrances the concealed AM floor loop guarantees an outstanding detection of both labels and ferrite tags. There is no need to install additional receiver coils.

Included features

Advanced anti noise algorithms

Jammer Alarm

Near Tag Alarm

Programmable sound and light

System Status

Green Mode

Tuning software

Extended connectivity

Relay Output

Easy installation

Installation of a floor system has never been easier since the system only consists out of 1 loop and 1 controller. The loop has potential to secure doorways 2m, 3m or 4m.

Auto Synch

Part of an easy installation process is automatic synchronization. The concealed AM floor system automatically adjust to its preferred settings based on its actual loop size.

Connected system

As with all the MTC AM systems the concealed AM floor loop also has the option to be equipped with a TCP/IP module, making it a connected system.

Optional add-ons

Internet access - TCP/IP module

Silent Alarm through app

Detection height

APX Labels, Supertag	Up to 120 cm
Ferrite Tags	Up to 140 cm
Xtreme Pencil Tags	Up to 160 cm

*Detection ranges measured under low noise conditions and with MTC tags/labels. Detection ranges under higher electrical noise conditions may decrease.

Technical specs Floor Controller

Width	47 cm
Height	6 cm
Depth	18 cm
Weight	5 kg
Operating frequency	58 KHz
Mains	110/220 V
Relay/Inputs/Outputs	1/2/2
Operating temperature	Up to 58°C / 185°F

Product reference

MTC Floor System	XS-FS58D
------------------	----------

Package contains

- 1x Floor System AM Controller
- 1x 12.5m Loop cable
- 2x 7-pin cable connectors
- 1x 58 KHz test tag

Since 2004 MTC EAS Partners is protecting retail profit by installing and maintaining RF, AM and RFID solutions and delivering only the best EAS accessories on today's market.
