

M.T.C. EAS | Metal Detection

MTC Quick Pager Systems

MTC Quick Pager Systems are specially designed for our Metal Detection systems. They provide a silent alarm when someone is passing through the Metal Detection gates. The transmitter has 6 inputs that can be connected to 6 different systems. Alarms will be indicated by flashing LED signal, beeper and vibrator. Program tool is available for programming 6 transmitters to one or more receivers

Features:

- Easy in use
- Long receiver battery life
- LED signal
- Connect up to 6 different systems

Specifications
