

RF security systems

RONDO

The Rondo 8.2 Mhz antenna system is the best entry model system available on the market today, powered by superior, original MTC Electronics.

Remote system management

The Rondo is easily installed and tuned through software. Remote tuning capability reduces maintenance costs and downtime.

Design

The Rondo System is of simple design but maximum effectiveness and is ideal for all possible retail solutions like Supermarkets, DIY stores, drugstores, garment shops and shopping malls. The totally new design of aluminium profiles fits perfectly into any modern retail environment.

Trolley Bumper

MTC provides various accessories for security products. One of them is the trolley bumper. Trolley bumpers give extra protection to the system itself.

Remote system management

All MTC RF Dual systems are easily installed and tuned through software. Remote tuning capability reduces maintenance costs and downtime.

Features

- Plug & Play installation
- Great design, maximum detection
- RGB alarm light
- Clear buzzer alarm sound
- Lightweight aluminum profiles
- Optional integrated booster bag detection
- No synchronisation in mono setup needed; less cables
- Superior, original electronics

Detection range	Mono	Dual
4*4 paper labels	Up to 90 cm	Up to 140 cm
5*5 paper labels	Up to 110 cm	Up to 160 cm
50 mm hard tags	Up to 130 cm	Up to 200 cm

Technical specs

Width	374 mm
Height	1530 mm
Depth	42 mm
Weight	9 kg
Mains	110/220 V
Operating temperature	Up to 58°C / 185°F

Product reference

Mono system	XS-R1MROPAL8C
Dual system	XS-R2ROML8C
RX antenna	XS-R2ROM8RA

Detection ranges measured under low electrical noise conditions. Detection ranges under higher electrical noise conditions may decrease. For mono systems, total detection coverage (both sides of the antenna). For dual systems, detection coverage between the antennas.
