

AM security systems

WIDE EXIT

The Wide Exit System is an acousto magnetic system operating at 58 kHz. The system is fully digital and has the latest DSP (Digital Signal Processing) technology with outstanding detection resulting in a minimum number of false alarms.

The Wide Exit Series can be equipped with optional, integrated with features like people counting, metal detection, magnet detection and remote diagnostics which results in direct insight into system performance & reduces maintenance costs and downtime.

Black Line Series

The Black Line Series treasures all the technological innovations and features of MTC EAS Systems but with an original and stylish black look.

Advertising Booklets

Every antenna can optionally be equipped with 2 advertising booklets.

Boosting in-store marketing campaigns never was this easy; advertising panels are inserted in just seconds!

Dual System	XS-A2MW58BC
Mono System	XS-A2MW58TRXB
RX Antenna	XS-A2MW58RAB

Detection ranges measured under low electrical noise conditions. Detection ranges under higher electrical noise conditions may decrease. For mono systems, total detection coverage (both sides of the antenna). For dual systems, detection coverage between the antennas.

Since 2004, MTC has been the trusted loss prevention solution supplier for both local and global distributors. Meanwhile, we are proud to have our products trusted, successfully sold and installed in more than 75 countries.
