AM security systems

X-CLEAR

The new X-Clear AM EAS system operates at 58 Khz. A full acrylic structure is supported by high-end, thin aluminium profiles. The slim base makes the X-Clear AM one of the thinnest EAS systems in the market today.

The X-Clear AM is easily upgraded with a TCP/IP module which allows to remote connect and service the system. Through high-end software system data can be extracted to one central point which results in direct insight into system performance & reduces maintenance costs and downtime.

Black Line Series
The Black Line Series treasures all the technological innovations and features of MTC EAS Systems but with an original and stylish black look.

X-CLEAR System specifications

Features

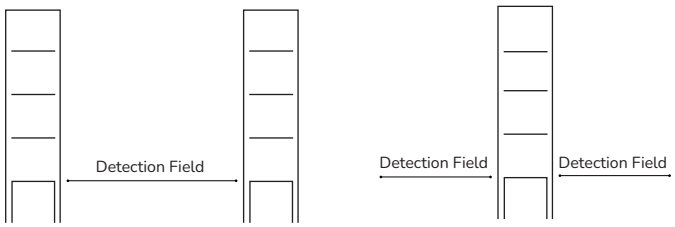
Advanced anti noise algorithms	●
Jammer Alarm	●
Near Tag Alarm	●
Silent Alarm through app	○
System Status	●
Green Mode	●
Aisle identification light	●
Relay Output	●

RGB light	●
Programmable sound and light	●
Internet access	○
Tuning Software	●
Booster Bag Detection	○
Magnet Detection	-
People Counter	-
Extended Connectivity	●

● Included ○ Optional

Detection range

DR Labels, Supertag	Up to 200 cm
Ferrite Tags	Up to 240 cm



Dual Set up Mono Set up

Detection ranges measured under low electrical noise conditions. Detection ranges under higher electrical noise conditions may decrease. For mono systems, total detection coverage (both sides of the antenna). For dual systems, detection coverage between the antennas.

Technical specs

Width	440 mm
Height	1527 mm
Depth	27 mm / 47 mm
Weight	12 kg
Mains	110/220 V
Relay/Inputs/Outputs	1/2/2
Operating temperature	Up to 58°C / 185°F

Product reference

Dual System	XS-A2MXC58BC
Mono System	XS-A2MXC58TRX
RX Antenna	XS-A2MXC58RA

MTC EAS PARTNERS

Since 2004, MTC has been the trusted loss prevention solution supplier for both local and global distributors. Meanwhile, we are proud to have our products trusted, successfully sold and installed in more than 75 countries.
