

Rondo RF

The Rondo RF Mono is the one of the strong foundations of our success, built on the belief that effective security should be simple to install, easy to use, and reliable.

RF Mono security system

The Rondo RF Mono series strips away complexity and premium price tags, delivering high-performance protection that "just works."

Rondo RF – Standard Line

The industry benchmark for reliability.

- Proven track record: thousands of global installations.
- Premium performance: optimized for high-traffic retail environments.
- Durable design: built for longevity and consistent detection.
- Color options: available in black or grey.

Rondo RF – Economy Line

Smart protection at an even more accessible price point.

- Advanced tech: driven by high-performance electronics.
- Software tuned: precision-calibrated for your specific environment.
- Future-ready: optional remote access for easy maintenance and diagnostics.
- Budget-friendly: stripped-back costs without sacrificing security.

Features

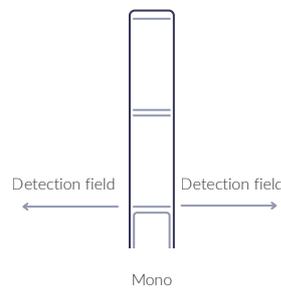

Plug & Play installation	● ●	Web-based tuning software	●
Simplified design	● ●	Internet access	● ○
RGB alarm light	● ●	Full black design	● ●
RGB alarm light adjustment	●	Grey design	●
Clear buzzer sound	● ●		
Over-the-air synchronization (wireless)	● ●		

● Standard line ● Economy line ○ Optional

Detection range

40x40 paper labels	Up to 90 cm
50x50 paper labels	Up to 110 cm
50mm hard tags	Up to 130 cm

Detection ranges measured using accessories from 

Detection ranges measured under low electrical noise conditions. Detection ranges under higher electrical noise conditions may decrease. For mono systems, total detection coverage (both sides of the antenna).

Technical specs

Width	374 mm
Height	1530 mm
Depth	42 mm
Weight	9 kg
Mains	110/220V
Operating temp.	Up to 58C / 185F
