SMART ALARMING TAG RFID+

For retailers using RFID based EAS and for those who have a multi-EAS technology strategy in their chain of stores.

A small device with big impact; the RFID+ Smart Alarming Tag comes in both RFID/AM or RFID/RF frequency and is equipped with 2-alarm technology.

Why retailers love it:

- Two-Stage alarm protection: Cut the cable? Alarm sounds. Try to exit past security? Another alarm triggers.
- Multi-Technology compatibility: Works seamlessly with RFID, AM, and RF systems.
- Flexible sizing: 120mm and 1230mm options to fit their exact inventory needs.

Specifications

Frequency	UHF / 58 Khz / 8.2 MHz
