

Protector

Smart protection for your EAS antennas

Designed to shield EAS antennas from accidental impacts in busy retail spaces, this protector helps prevent costly damage caused by shopping carts, strollers, and other equipment, keeping all brands security systems safe and operational.

Universal

Fits many brands EAS pedestals

Robust

Brushed Stainless Steel covers

Design

Supported by a black frame

Why system integrators love it?

Its universal compatibility seamlessly integrates with existing EAS brand antennas without affecting detection performance. Its **easy-lift-cover** allows doing antenna service without space restrictions. Its built to endure frequent bumps and impacts in busy, high-traffic environments.
